

VERISTA

**MEETING THE NEEDS OF LIFE SCIENCES CLIENTS  
WITH BUSINESS, TECHNOLOGY AND COMPLIANCE SOLUTIONS**

Verista exists for one reason: To accelerate your product's path to success from discovery to delivery. Our approach is simple: **We put the client's interests first.** We don't stop until it's right. And we'll do whatever it takes to get there.

Verista is a life sciences business, technology and compliance company that helps solve critical and complex challenges throughout the product lifecycle – from research to manufacturing to post-marketing support. We seek opportunities to help clients find meaningful solutions to business problems.

We bring top-tier expertise to every stage of an engagement, whether it be helping emerging and mature life sciences companies solve the challenges associated with bringing therapies to market, to optimizing IT system and data management strategies, to helping large pharma launch and optimize their manufacturing operations. We ensure quality, validation and compliance that support research, clinical, commercial and manufacturing operations with comprehensive, detailed project management. We are your choice – every step of the way, every time.

Our mission is to enable Life Sciences clients to improve lives. And we believe our clients' focus should be on delivering safe and effective medical products to market faster. Verista can help them achieve this by bringing together decades of knowledge and the most advanced engagement platforms and transformative technologies. Our clients benefit from the ease, efficiency and trust that results from working with one partner who excels across its specialties.
